What we'll cover

45 minutes · 3 acts · 5 stops

01 **What is CIJ?** Positioning, and where it lives in Dynamics 365

02 **Capabilities** Events · Journeys · Emails & Forms

03 **The Good** What truly works well in real projects

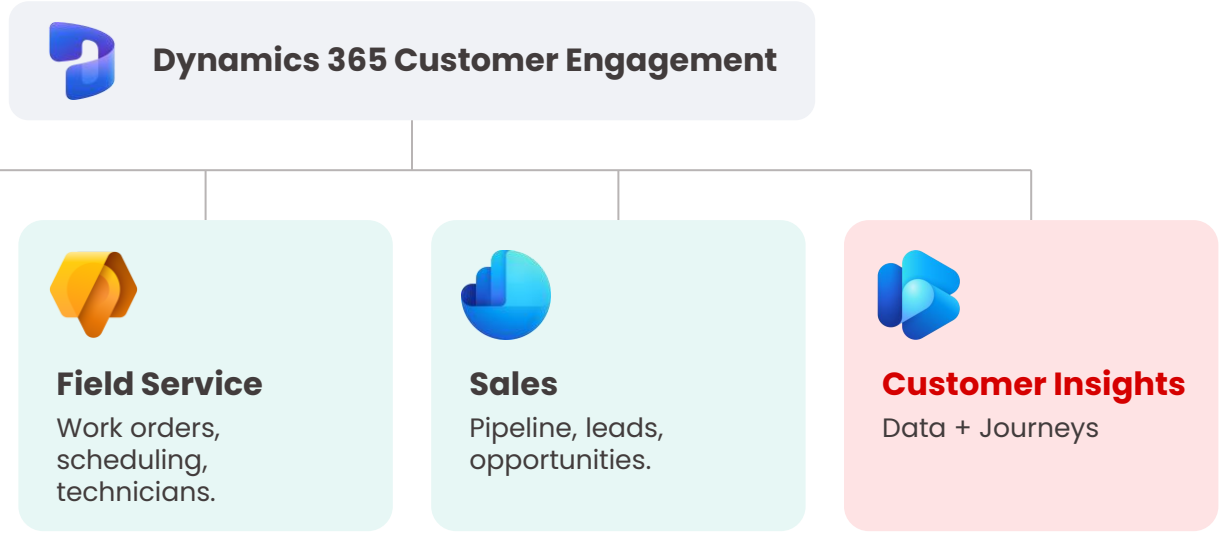

04 **The Bad** Where reality drifts from the demo

05 **The Useful** Tips I wish someone had told me earlier

What is Customer Insights Journeys?

One app in the Dynamics 365 Customer Engagement family

Demo Time

Events · Journeys · Emails & Forms

Use Case

Meet Roasting Flow, the coffee roaster behind today's demos.

- **For the moment, focus on e-commerce**
- **They organize barista courses**

Website Promotion

The Good

Where Journeys actually delivers.

+ **Real-time triggers are a treasure**
+ **Native to the Power Platform**
+ **Organize Events End to End**
+ **Reusable building blocks simplify work**

The Bad

Where reality drifts from the demo.

- **Drag-and-drop will only get you that far**
- **Consent & GDPR is on you**
- **Updates can stop business processes**
- **Multi-language & branding**

The Useful

Tips I wish someone had told me earlier.

- **Build Reusable Forms with custom scripting**
- **Journeys are not forever**
- **Don’t EVER edit on the default Forms**
- **When in doubt, use a trigger journey**

Takeaways

01

Powerful when inside the Power Platform.

02

Plan beyond out-of-the-box.

03

Reuse beats reinvent.

Questions?

Anything you want to poke at: the Good, the Bad, or the bits I skipped.
